Sunnyside Community Library Remodel Update

The Sunnyside Community Library, a community library of Yakima Valley Libraries, has been undergoing a significant remodel that began in May. Yakima Valley Libraries Director Kim Hixson reports, “Despite some of the unanticipated occurrences during the remodel of an older building, we are moving forward. Yakima Valley Libraries is excited to provide the Sunnyside community with an updated library featuring new carpeting, furniture, paint, restrooms, community room with a fireplace, new windows, study rooms and let’s not forget to mention new books and materials for everyone!”

BORArchitecture and Booth & Sons Construction were selected by the Yakima Valley Board of Trustees to design and remodel the library building. Timeline of completion for the Sunnyside Community Library is expected at the end of October.

Library services have been conducted at a short-term site for the past several months. The temporary library is anticipated to close October 23rd for approximately three weeks to remove library equipment and materials and transfer them back to the original building. Library services are expected to resume November 16th following a Grand Opening which the public is cordially invited to attend.
