MOLINA HEALTHCARE OF WASHINGTON AND SIGNALHEALTH EXPAND ACCESS TO CARE FOR APPLE HEALTH MEMBERS IN YAKIMA

Yakima, WA – January 17, 2017 – Molina Healthcare of Washington and SignalHealth recently announced a landmark agreement that will expand access for Molina Apple Health members to include all SignalHealth affiliated providers throughout Yakima. This new partnership enables Molina Medicaid members in Yakima County to receive services at over 92 service locations and Virginia Mason Memorial Hospital. The SignalHealth partner network has more than 500 participating providers. This includes 19 primary care and 73 specialty care practices.

 "We are honored to enter into an innovative, long-term partnership with SignalHealth that is dedicated to expanding access for Molina's Medicaid members throughout the Yakima Valley," said Peter Adler, president of Molina Healthcare of Washington. "Molina Healthcare and SignalHealth share highly aligned missions that emphasize affordable, high quality care. Our commitment to provide better care for Medicaid beneficiaries could not be timelier due to the concerns about potential future reductions in services and coverage. Ultimately, this agreement gives those selecting Molina more options and helps us, in partnership with SignalHealth, focus on care coordination, collaboration and efficiency."

Molina Healthcare of Washington provides government-funded care for low-income individuals. From the beginning and through today, our mission is to provide quality health care to people receiving government assistance. As of September 2016, the organization serves approximately 716,000 members through Medicaid, Medicare and the Health Benefit Exchange programs across the state of Washington. Additionally, Molina Healthcare operates Molina Medical, a primary care clinic in Everett.

"We are excited about our new relationship with Molina and how it will allow our clinical teams to better focus on the unique health needs of our Medicaid patients. We look forward to being able to meet their needs through innovative ways," said Shawnie Haas, President and CEO of SignalHealth. "Our clinical partners include many of Yakima's safety net providers. This partnership helps us to more formally integrate our care across all aspects of our delivery system."

About Molina Healthcare
Molina Healthcare, Inc., a FORTUNE 500 company, provides managed health care services under the Medicaid and Medicare programs and through the state insurance marketplaces. Through our locally operated health plans in 12 states across the nation and in the Commonwealth of Puerto Rico, Molina serves approximately 4.3 million members. Dr. C. David Molina founded our company in 1980 as a provider organization serving low-income families in Southern California. Today, we continue his mission of providing high quality and cost-effective health care to those who need it most. For more information about Molina Healthcare, please visit our website at molinahealthcare.com.

About SignalHealth
SignalHealth was formed in 2011 to address community health care needs by uniting providers to improve the patient experience, population health and reduce the cost of health care. For more information, please visit our website at signalhealthwa.com.
