Today in America...

Selah has been given an opportunity to be featured on a National Television show called "Today in America" hosted by Terry Bradshaw. The segment is called "Cities of Distinction to Live, Work, and Play". The film crew will be in Selah filming the segment on Saturday, June 30th.

Among the places in Selah that will be filmed are our Parks, Golf Courses, Ball Fields, Downtown Businesses, Tree Top, Monson Fruit Company & Neighborhoods.

This will be your chance to be on National Television! Come walk around downtown, go to the Ball fields and take in a game at Carlon Park or even have a picnic in one of our fine parks in Selah.

If you're a business maybe set out some colorful flowers and spruce up a little! Our Goal is to bring visitors into our fine town and discover what we all love about Selah!

So Selah lets put on our best smiles and all say "Cheese" for the love of our community!

This is a perfect opportunity to give Selah exposure and help boost our economy!

We will see you around town...

PACIFIC POWER TOOL KIT

Pacific Power – energy efficiency article – July 2012

Tools to save you energy and money

“A penny saved is a penny earned.” This saying may seem cliché, but it’s a fact of life for businesses in this challenging economy. To help businesses stay on course, Pacific Power offers its Business Solutions Toolkit, a set of free, online resources that provide customers advice and information for managing their energy use and costs.

Business Solutions Toolkit features include:

Energy-saving tools – customers can use tools to: estimate the benefits of upgrading lighting, HVAC and other equipment; get money-saving recommendations with a short energy assessment of a facility; and compare their operations with others in the industry.

Expert advice – A dedicated team of engineers, technicians and researchers provide answers to customers’ questions – usually within 24 hours. Requests are handled confidentially.

eLibrary – Customers can search key energy news plus access thousands of documents and expert recommendations.

Energy newsletters – Links to the company’s *Energy Connections* newsletter are available through the Toolkit.

To learn more, visit pacificpower.net/toolkit.

The Selah Chamber of Commerce Board will take a 2 month hiatus. There will be no meetings July & August. They will resume in September. The office will remain open during this time.
