Business License Renewals Available Online

With 2017 drawing to a close, merchants with business licenses in the City of Yakima can avoid the deadline rush and renew their licenses online for 2018.

The City's Code Administration Division has established www.buildingyakima.com as an option to renew City of Yakima business licenses.

A City of Yakima business license is required for all businesses operating within city limits, including those exempt from paying the business license fee.

Visit <https://www.yakimawa.gov/services/codes/licenses/> for more information on business license requirements and business license renewals. Information is also available by calling 575-6126.
