

**FOR IMMEDIATE RELEASE**

## **UScellular Surprises Moxee Elementary School with Local Donation**

Spreading Locally Grown Joy to support Moxee Elementary School

**Yakima, Wash. (December 1, 2021)** – To celebrate the holiday season and the meaningful value of community, UScellular is donating white boards, white board markers, water bottles, coloring books and magnetic tiles for kindergarten classes at Moxee Elementary School. In order to bring locally-grown joy to Moxee, UScellular worked with their local team to learn about the needs of the community and then reached out to Moxee Elementary School to get their ideal wish list. Traveling in a holiday-themed truck, the company will deliver the classroom supplies to support the kindergarten classes' needs. This gift is one of more than 70 donations UScellular is making to help connect with their local communities and spread joy this holiday season.

"Giving back to the people and organizations that make the Yakima area a place we are proud to call home is what this season is all about," said Vanessa Leija, Washington area sales manager at UScellular. "Especially after last year, it is a true joy to celebrate and connect with the organizations that make our community special."

Moxee Elementary School is a dedicated group of professionals that are working very hard each and every day to support student growth academically, socially, and emotionally. Their personalized learning approach allows staff to identify individual student needs and utilize the necessary resources to help students be successful. Students in grades 1-5 have one-to-one access to technology to support those individual learning needs through a variety of programs.

Through this UScellular initiative, organizations from hospitals to local Boys and Girls Clubs will receive a little extra cheer, and gifts range from toys for children to food donations for local homeless shelters.

In addition to community gifts, UScellular is hosting a sweepstakes where \$10,000 will go to the winner and another \$10,000 will go to the Science, Technology, Education and Math (STEM) program of the winner's choice at [locallygrownjoy.uscellular.com](http://locallygrownjoy.uscellular.com).

UScellular has a longstanding commitment to supporting its local communities through donations and volunteerism. Since 2009, the company has donated more than \$20.9 million along with countless experiences and technology items to nonprofit organizations across the country.
